Awakening Bhagavan Das

Kirtan with Bhagavan Das

Saturday, August 13th, 2005

8:00 - 10:00pm

Nada Yoga Master Bhagavan Das takes us on a gentle journey through the seven chakras, awakening the soul through chanting.

Kirtan: The kirtan is a 2-hour experience of devotional chanting to the divine mother. Kirtan involves call and response singing, and Bhagavan Das uses kirtan as a way to connect to our spiritual selves. The ecstatic chanting is musically beautiful and spiritually powerful, and all those who participate will experience a powerful and moving event.

Vedic Astrology Readings: The vedic astrology readings with Bhagavan Das last approximately one hour. They are based on the exact birth date, location, and time of birth. He provides each person a taped CD of the reading. Bhagavan Das learned the skill of vedic astrology while living in India, and he has practiced this art for over 30 years. His readings are filled with insight and inspiration, and those who have readings with him are always left with a sense of power, devotion, and direction.

Location for Astrology Readings: Readings will be held at the Hotel California, just down the street from Avalon, on Sunday, August 14th (and Friday August 12th if interest is high) - Vedic readings are typically 1-1.5hrs long, booked every two hours, with no more than six sessions per day.
